

BREVARD PUBLIC SCHOOLS, FLORIDA
Individual Problem Solving Team (IPST)
Analysis of Interventions and Recommendations
Directions

IPST FORM 8

WHO: IPST Form 8 is completed by the IPST.

WHAT: Based on data collected throughout the problem solving process, the team decides educational needs based on the student's response to interventions.

WHEN: IPST Form 8 occurs as the final stage of the IPST process. Recommendations are made when the data is sufficient to make an informed educational decision.

WHY: Data drives the problem solving process. Through accurate progress monitoring, the team will have sufficient data to make important educational decisions about the student. These decisions may include maintaining the current intervention, modifying the intervention, terminating the intervention, consulting with other support staff, performing additional assessments or completing a formal evaluation.

HOW: The IPST will utilize the rate of progress data and post intervention data analysis to make informed decisions regarding the educational needs of the student. All attendees at the meeting will sign on the bottom of IPST Form 8 on the designated lines. It is important for the IPST to determine at the meeting the date/time of the next meeting (if applicable).
